DUBAI

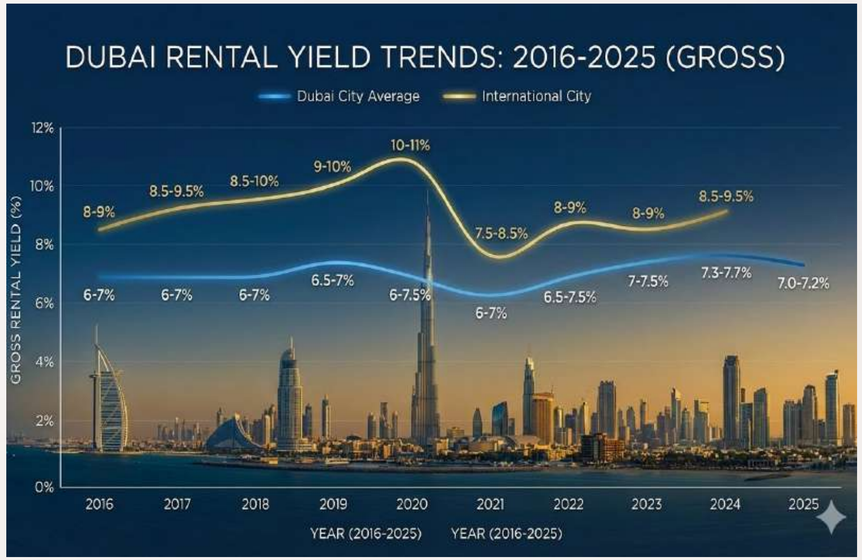
Dubai is not defined only by its landmarks. It is one of the world's most powerful migration cities —attracting not only global millionaires, but also a vast inflow of working professionals, families, and long-term residents across income levels. This rare, multi-layered population structure creates genuine diversity and sustained everyday housing demand, making affordable residential communities the true foundation of Dubai's property market.

LISTONE Residence

INTERNATIONAL CITY

International City is a high-density residential zone designed to support Dubai’s population-led growth. Unlike landmark-driven districts, it absorbs large volumes of long-term residents across income levels, creating one of the city’s most consistent rental markets. Its scale, density, and everyday functionality make it a core engine of Dubai’s real residential demand.

In recent years, International City has consistently delivered rental returns above Dubai's average, supported by its mature and abundant amenities such as parks, supermarkets, and schools—creating favorable conditions for investors.



LISTONE Residence

INTRODUCTION

WHERE NEBULA MEETS LUXURY

Listone Residence invites you to dwell in the soft celestial glow of a nebula, where flowing architectural lines meet curated luxury living and panoramic terraces that frame the sky like a work of art.

LISTONE Residence
